Specialists

Care that travels with them.

From late-night fevers to chronic-care continuity, your guests stay supported the entire stay — on their own device, in their own language, without ever leaving the room.

In-room care

Guests consult specialists from bed — no transport, no missed activities.

24/7 availability

Round-the-clock access for unexpected concerns at any hour.

Language support

Multi-participant calls let interpreters or family join from anywhere.

Reduced exposure

Skip crowded clinics and lower infection risk during the stay.

Peace of mind

Quality medical attention always within reach for travelers.

Chronic-care continuity

Hypertension, diabetes and asthma plans stay on track while away.

MULTI-LANGUAGE READY

English, French, Ewe, Twi, Ga — plus your own interpreter can join any consult in one tap.

New level of service. No new infrastructure.

Stand out in a crowded market with a service guests genuinely value. Reduce operational disruption from medical incidents while protecting guest experience and review scores — with zero hardware to install and no clinical burden on your staff.

- ✓ Premium wellness amenity
- ✓ Reduced medical-incident liability
- ✓ Lower guest-transport costs
- ✓ Higher guest satisfaction scores
- ✓ Less operational disruption
- ✓ Attracts health-conscious travelers

ROLLOUT — LIVE IN 4-6 WEEKS

01

Discovery

Assess guest profile, room mix and operational fit.

02

Pilot

Launch in a small room block with staff training.

03

Implementation

Roll out hotel-wide with branded collateral.

04

Ongoing

Monthly utilization reports and platform updates.

Let's design a partnership for your property.

Share your room count and guest profile — we'll propose a deployment model and pricing that fit. Most partners are live within 4-6 weeks.
